Nordic Life Sciences Days
10 th - 12 th September 2018 - Stockholm
10% discount on registration for ULS members

Nordic Life Science Days is the largest Nordic partnering conference dedicated to the life science industry. Since its inception in 2013, the event has nurtured a community of people from the world of life science and created a unique place to do business. Most attendees express their delight in the informal atmosphere, combined with an organised approach to meeting highly relevant people. Return visitors come back because they feel they belong to our growing community. We hope to welcome you, too.
