

Concept Life Sciences GMP Launch

**Start Date: Wednesday, February 26,
2020 10:00 AM**

End Date: Wednesday, February 26, 2020 5:00 PM

This science focussed event will bring together experts from across the drug discovery & development landscape; sharing their knowledge and experiences from Process R&D and manufacturing through to pharmaceutical development. The day will provide a forum to discuss specific challenges and developments within this field initiated by a number presentations from influential speakers within the industry, as well as poster presentations. There will also be an opportunity to tour our new state-of-the-art GMP facilities.
