Our annual Senior Executive Dinner is an exclusive, invite only evening, attended by senior level members of our life sciences network. Networking and making new contacts is a vital part to generating and maintaining success for your business, and our senior executive dinners provide the ideal platform from which to achieve just that.

The evening starts at 18.30 with a drinks reception on the balcony overlooking the Thames, followed by a sumptuous three-course meal with fine wine in the private event space of Fieldfisher. We will also hear from an industry guest speaker on the night who will share their thoughts on a topic of general industry interest. After dinner there will be a further opportunity to network and mingle with guests.
