

## **BioSeed 2022 – An update from OBN regarding Covid-19, 16.12.2022**

In accordance with current UK Government guidelines, BioSeed 2022 will be going ahead as planned, in-person at etc. venues, County Hall in London on 25 January 2022.

Please note that on arrival to the venue, all delegates will be asked to show a valid NHS Covid passport, or equivalent if travelling from abroad. We also kindly request that you take a lateral flow test on the morning of the event.

The team have delivered eight successful live events in-person since 11 June 2021, all fully compliant with Covid-19 guidelines of the time. In-person interaction has and always will be our preferred format, particularly for our cornerstone events, with delegate safety remaining our top priority.

If we find ourselves in a position where UK Government guidelines constrain the delivery of in-person events at the time of BioSeed 2022, we have made the decision not to switch the event delivery to a digital format. We will instead postpone the in-person event to a new date, with all bookings and presentations directly transferred.

Delivering value and creating opportunity for our membership network and the wider life sciences community remains our core objective here at OBN and we thank you all for your understanding and continued support.
